

~~ABSTRACT OF THE INVENTION~~

## ~~Novel Polypeptides Involved in Immune Response~~

5 Novel polypeptides which comprise a receptor-  
ligand pair involved in T-cell activation are  
disclosed. Nucleic acid molecules encoding said  
polypeptides, and vectors and host cells for expressing  
same are also disclosed. The polypeptides, or agonists  
10 and antagonists thereof, are used to treat T-cell  
mediated disorders.
